Costs Intangibles

When clients call to get an estimate, they often ask for a total cost for their special occasion or do we have package prices. I wish we could just respond with a quick dollar amount, but there are so many intangibles after the food cost per guest. When we say “food cost” per guest as you see on our menus, it is for food and all equipment to display and serve food - chaffers, serving dishes, platters, bowls, baskets and serving utensils - with exception of drop-off only. It doesn't include the following intangibles: staffing, coffee, ice or any rental costs.

Below is general information which are the intangibles that will effect the final costs. Please take a look and advise which of these services will be needed to complete the service.
